The Fruit.—Of course there is a how about the fruit being killed. This howl comes as regularly as the vernal equinox. Perhaps in low grounds the recent cold snap did damage the fruit. Many a time fruit buds have come safely through a severe snap. But this cold was preceded by a drying wind, which is most decidedly in favor of the safety of the fruit. Farmers and fruit-growers are proverbially panicky about the fruit when a frost comes, and farmers in the vicinity of Wheeling are comfortably comident that their buds have not been killed. Apples, peas and cherries are late bloomers, and their fruit germs are wrapped up snug and dry and warm. If there is any wheat that may be already jointed, and there is not much, if any, in that nd there is not much, if any, in that tate of forwardness hereabouts, it will doubtless be injured more or less. We may as well contain ourselves for the may as well contain ourselves for the present, and instead of assisting anybody in buling the fruit or grain market, rest in hope, and bless our stars that the cold has been so moderate, and console ourselves with the prospect of abundance of fruit and grain, if no frost or blight comes hereafter to destroy it.

THE WALLACE TRAGEDY. — Another Theory as to the Incentive Power. —As yet there has been no satisfactory theory promulgated as to the incentive power which prompted John Wallace, the self-confessed triple murderer of Wetzel county, to commit the deed for which he gave up his life by dancing on air from the limb of a sour apple tree. The Wheeling correspondent of the Pittsburgh Dispatch, however, comes to the relief, and strongly intimates that lust was not the cause for which John Wallace murdered his victims. The Dispatch correspondent, after reciting among other things John Wallace's terror when seized by the tyigilantes, his assertion that hell was his vigilances, his assertion that hell was his doom, and stating that John was proba-bly not conversant with the teachings of Bob Ingersoll, winds up three-quarters of a column of an interview with George a column of an interview with George Wallace, diss Baker, with the following, purporting to be the cause of the murder Dispatch Reporter—Did your brother have any known cause to murder your wife? Was he not known to have previously here encound in passing causteful money! wife? Was he not known to have previously been engaged in passing countryfeit money? Was your wife not aware of this fact? Did your brother not murder her for fear she would "give him away?" and what did he tell you, while you were confined together at the hotel at Burton, was the incentive power which prompted him to do the deed?

At the above inquiries Wallace burst into a flood of tears, and replied that he

into a flood of tears, and replied that he did not know or remember what his brother told, but on being questioned further, said he remembered a portion further, said he remembered a portion of the conversation, but positively refused to answer any of the questions above enumerated. Taking this view of the matter, the theory advanced in the correspondence is to the effect that John Wallace feared the knowledge of his former acts as above stated, of which his sister-in-law was in possession, and resorted to murder to cover up his tracks. The same correspondent also asserts that the wigilantes that hung John Wallace were organized under the auspices of the Red Men's Society, and that several of the men are known.

COLORADO EXPERIENCES —A Wheeling man who is at present sojourning in Colorado writes to a friend here as follows:

"We have had one of the worst snow storms, which lasted three days and nights, on the 7th, 8th and 9th of this month, I ever saw in any country. We had snow in our shants five inches deep, over everything when we got up the first morning; and we could not get it out, for the wind would blow it in again, faster than we could get it out, So we lived in snow, and I tell you it was everything but pleasant; we always had hard words as to who had to go out and cut wood." The remainder of the letter is quite interesting to all who have friends in Colorado, but we have not the space to give more of it. COLORADO EXPERIENCES -A Wheeling

An Astonishing Fact.—A large pro-AN ASTONISHING FACT.—A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most, alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relife is certain. Millions of bottles of this medicine have been given away to try its wirtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. eodaw

A Suggestion to the Traveling Public.

A Suggestion to the Traveling Public.

Tourists, emigrants and mariners find that Hostetter's Stomach Bitters is a medicinal safeguard against unhealthful influences, upon which they can implicitly rely, since it prevents the effects that an unhealthy climate, vitiated atmosphere, unaccustomed or unwholesome diet. bad water, or other conditions unfavorable to health would otherwise produce. On long voyages, or journeys by land in latitudes adjascent to the equator, it is capecially useful as a preventive of the febrile complaints and disorders of the stomach, liver and bowels, which are apt to attack natives of the temperate zones sojourning or traveling in such regions, and it is an excellent protection against the influence of extreme cold, sudden changes of temperature, exposure to damp or extreme fatigue. It not only prevents intermittent or remitent fever, and other diseases of a smalarial type, but eradicates them, a fact which has been notorious for years past in North and South America, Mexico, the West Indies, Australia and other countries.
